

Position Title: Junior Research Analyst

Ref Code: JRA_02

ISI Emerging Markets Ltd, Egypt**Company Background:**

ISI Emerging Markets is a Euromoney Institutional Investor Company, headquartered in New York USA. ISI has operations in 15 countries around the globe. CEIC Data, as a business unit of ISI Emerging Markets, has had over 18 years of well-regarded reputation in the financial information service industry. Our worldwide clientele includes leading economists, strategists, equity analyst, fund managers and professional researchers. For more details, please visit our websites at www.securities.com and www.ceicdata.com.

Products:

CEIC Data's "best in class databases" deliver the most accurate and timely economic, sector and financial data sourced from around the globe. Our analysts on the ground compile and update hundreds of thousands of time series from hard-to-get sources, delivering a suite of databases relied upon by top economists and analysts all over the world.

Global Professional Team:

In addition to worldwide headquarter in New York, European headquarter in London and Asia headquarter in Hong Kong, our professional team is working at a further 26 offices in Asia, Europe, Middle East and Latin America with more than 500+ staffs.

Join Us!

Due to explosive growth of existing services and market-driven demand for CEIC, we are now looking forward to invite dynamic, ambitious and motivated professionals to join our team at Cairo, Egypt Office. The office place is located at Heliopolis; hence Heliopolis-area candidates are preferred.

Responsibilities:

- Enhance and build up macroeconomic datasets on local or other emerging markets through data mining and compilation
- Maintain and enhance pre-built up spreadsheets on macroeconomic indicators
- Follow up data release schedules of official data providers and maintain time series updates accordingly
- Establish close cooperation with the selected countries' official data providers (Statistical Institutions, Central Banks, Stock Exchanges etc)
- Prepare charts/graphs of macroeconomic indicators
- Attend to clients' queries on our macroeconomic database service

Requirements:

- Degree in Economics Statistics or equivalent
- Sound knowledge of macroeconomic statistics
- Strong understanding of the economy in MENA region

- Fluency in English, verbal and written
- Basic French knowledge is welcome
- Numerate, analytical and rigorous attention to details
- Good command of PC/spreadsheet applications
- Strong analytical and data mining skills
- Good interpersonal and communication skills
